

Updated draft MOU

The attached MOU includes changes that Dan Guyer and I recommended to the Ad Hoc Committee without realizing that the majority of the other committee members were not comfortable making any additional changes remotely (via email). By the time we realized that this was the case, it was too late to arrange another meeting of the committee.

The attached version of the MOU has two major changes to the previous version: the insurance paragraph has been revised with more detail and an escape clause has been added at the end of the document.

Nothing is being adopted this month. The goal is to get a preliminary nod of approval by consensus from all three boards. The next step will be attorney review and no doubt it will undergo additional revisions by the attorneys.

Dan Guyer and I recommend that the attached draft be used for consideration at the district meeting (10/15/2020). Whatever the PRCSB board decides can then be passed back to the non-profit boards for consideration.

If the non-profit boards decide to look at this draft at their meetings on 10/14/2020 it might save some additional back-and-forth; but it is up to them.
